KINGSINE K3063+ Protection Relay Test Set

K30 series relay tester is extremely design for overseas user, with Friendly PC software as your need, unique features and functions helps you all the way!

- 1. Unique self-protection system assure the powerful protection when instrument is operating, automatic stop the output when the network is abnormal;
- 2. Unique power switch and amplifier technology, so the output precision and power efficiency and factor are increased, which conforms to international tendency of energy save and environmental protection;
- 3. With alarm function of housing grounding testing and external voltage input, to guaranty personal security;
- 4. Two in one of meter and source, with function of both internal and external testing, self-calibration, oscillograph, and the duration of each oscillograph reaches 50S (optional function);
- 5. Offer independent Aux. DC to tested devices, 0 ~ 300V/0.6A (Poleless and adjustable);
- 6. Function of transducer and energy meter testing (optional function);

7. Testing interface offer unique output monitoring function and Pre-curve-tracing function, helps more on the spot analysis;
